I'm sort of

those who

CHARACTER PROFILE

Okita Tomoya

He's a very challenging character for me. I'm pretty happy that he's so popular with girls! The most interesting thing that my readers have said in the Forums is "Baka and Chitosema". (Laughs) There are also quite a few people that wish there's a guy like Okita.

But, if you do have someone like Okita as your classmate, you'll probably feel really troublesome about it!

I've had a hard time with his personality at first, but I really start to enjoy drawing him after I've finished drawing his sketch.

Insider: Okita playing in a band... That was one of my original settings for him, (Laughs) but that disappeared after some considerations. Yeah, if he was a high school student instead, I might have used that idea!
